Student Services Function Counseling and Guidance (Online Academic Advising)

The Division of Student Services aims to provide academic/career advising assistance conveniently built around student needs and their schedule availability. Students who have an academic advising question can receive online advising by completing a form and speaking with an academic advisor online through our secured website. Inquiries will be answered within 24 - 48 hours during normal business hours.

Guided Pathways

Providing online academic advising, which assists students in identifying and following their academic path, fulfills the criteria of Pillars II and III of Guided Pathways.

Outreach and Recruitment

This week we visited students from the following high schools to provide information on program offerings, admissions, registration, and financial aid.

Academic Outcomes of Veteran Students

The Division of Institutional Effectiveness reviews national data to compare to WCCCD's performance against the national average. According to Student Veterans of America (SVA), "Veteran students are more likely to graduate than their peers." SVA is a coalition of student-veterans on college campuses across the globe. Below you will find sample data from this report:

Good News!

The Division of Administration and Finance has successfully automated the generation of the Financial Statements with the click of a button!

Automation of financial reporting eliminates many of the mundane and time-consuming processes associated with manual accounting. This improves the efficiency and timeliness of generating financial reports for the fiscal year.

Time and Attendance

Web-Time Entry helps automate scheduling, data collection, exception tracking, calculation of hours, review, editing and approval to facilitate quick transfer of accurate hours to payroll.

Labor Analytics

Web-Time Entry enables our managers to plan with confidence. Managers have real time critical metrics and reports at their fingertips to make informed decisions

Employee Self Service

Web-Time Entry allows for the scheduling, tracking, approving and reconciling of time usage. The ability to view all available types of time, empowers both employees and managers to manage accurately and appropriately.

Real Time Data

Web-Time gives access to real time data which is more important than ever. It offers managers the ability to effectively manage day to day operations, as well as future plans and strategic directions.
